Tom McMullen came to the University of Maryland in 1999 and worked for the Facilities Department in various roles until joining CMPS as Director of Facilities in 2008. Tom has over 30 years experience in government and private industry in Facilities Design and Construction and holds masters degrees in both Civil Engineering and Business Administration from the University of Maryland. He has worked on collaborative lab projects with the Maryland Department of Agriculture, National Institutes of Science, and various colleges at the College Park Campus. Tom has also overseen capital projects including building additions, mechanical and electrical building upgrades, residential facilities renovations, and construction projects for the Department of Intercollegiate Athletics.

CMPS currently is located fully or partially in fifteen buildings on campus with over 500,000 net assignable square feet. Tom works on behalf of the Dean to coordinate medium to large scale renovations and new building projects for the College. He assists department researchers and administrators with their facilities planning and operations. He acts as a liaison between College researchers and administrators and campus units such as FM and DES. Tom is also the College's Compliance Officer; as such he works with DES and the CMPS Departments to increase and improve safety within the College's research community.
