- “Some discretizations of geometric evolution equations and the Ricci iteration on the space of Kahler metrics”:

p. 1552, line 9 and p. 1557, line 6: should be  $C^\infty(S^2)$  and not  $C^\infty(M)(S^2)$

p. 1558, line 20 and line 34: instead of  $\lim_{t \rightarrow \infty} \varphi_{t_j}$  and  $\lim_{t \rightarrow \infty} \psi_{j_k}$  should be  $\lim_{t \rightarrow \infty} (\varphi_{t_j} - \frac{1}{V} \int_M \varphi_{t_j} \omega^n)$  and  $\lim_{t \rightarrow \infty} (\psi_{j_k} - \frac{1}{V} \int_M \psi_{j_k} \omega^n)$ , respectively.
