

Workshop on Conservation Laws

Trondheim, Norway August 21 - 23, 1995

Call for papers

This workshop will be an informal forum for presentation of new and recent results concerning conservation laws. The main focus of the workshop will be on mathematical analysis and numerical methods, but presentations concerning applications are also welcome. There will be a series of longer lectures given by invited speakers, as well as shorter contributed sessions. The invited speakers will have time to give a broad introduction to a particular field. The contributed sessions are expected to last 20 minutes including discussion. For the contributed talks, an abstract should be submitted to the scientific committee before March 1, 1995. There will be no proceedings from this workshop but copies of accepted abstracts will be distributed at the workshop.

Invited speakers

- A. Bressan, Trieste
 - C. Johnson, Gothenburg
 - B. Engquist, Los Angeles/Stockholm
 - B. Plohr, Stony Brook
